

Hair Treatments

Repair Shampoo

A high protein formulation designed to protect damaged, fine or over processed hair.

Tar Shampoo

A special treatment for scalp and problem dandruff.

Thinning Hair Shampoo

A unique formula for the care of fine, thinning, and falling hair.

Clay Mint Mask

This mask provides an effective way to clean and tighten pores while absorbing excess oils and helping to dry up blackheads.

Intensive Hand Cream

This hydrating cream will not leave the hands greasy while it holds in moisture. Excellent for dry, chapped skin.

Light Textured Moisturizer

The superior skin softening ability and elegant feel make this moisturizer ideal for daily use.

Sun Protection

Oil Free Moisturizing Sunscreen

PABA Free. This Sunscreen is free of oil, fragrance, Lanolin and Propylene Glycol which can irritate the skin. Use everyday under make-up. Regular use will help diminish the visible signs of aging and prevent darkening skin patches due to sun exposure while protecting from UVA and UVB damage.

Vita Lift Glycolic 20% Cream

A moisturizing face cream that delivers ultra-pure Glycolic Acid along with antioxidant benefits of Liposomal Vitamins A,C, and E, Green Tea Extract and Co-Q10. A liposomal delivery system delivers the ingredients more deeply into the skin. Formulated in a light, non greasy base.

Dual Action Moisturizer

PABA Free. This non-sensitizing sunblock offers maximum protection from moisture loss while shielding the skin from both UVA and UVB damage. Regular use will help diminish the visible signs of aging and prevent darkening skin patches due to sun exposure. Especially recommended for patients undergoing Retin-A therapy.

Vita-Lift Sunscreen SPF 30

This elegant sunscreen delivers broad-spectrum protection as well as antioxidants for a complete sunscreen solution for all skin types

Prevention Treatment Maintenance

THE SAVIN CENTER

The Products

The products featured in this brochure have been selected and carefully evaluated by our physicians and staff to meet and exceed the needs of our patients. Diligent testing is your assurance of receiving the highest quality most effective and safest products available.

The Savin Center

The Savin Center offers a full range of clinical skin care products for the hair, body, and sun protection. Our Alpha Hydroxy Acid products contain the highest concentrations which have been proven to exfoliate dead skin cells and fight wrinkles. Our antioxidant High Potent-C products fight the effects of free radicals on the skin, which are major contributors in the aging process.

Our Staff

Our Staff is trained in using state-of-the-art technology to help you look younger and feel great. Please ask us about the products detailed in this brochure and their specific use. We welcome the opportunity to help you develop a skin care regimen to meet your specific needs.

Our Physicians

Our physicians are skin care professionals. They have found the optimum combinations of Antioxidants and Alpha Hydroxy Acid ingredients for maintaining the appearance of younger, more radiant looking skin.

About Wrinkles

Wrinkles are not caused by dry skin. As you age, the natural process of cellular renewal declined causing the dead skin cells of the epidermis to remain on the surface longer, making the skin appear dull and older. The skin's natural production of oil also declines, creating a dry appearance. With maturity, the skin slowly loses its high level moisturization, and the epidermis thins causing the skin to become more delicate. In the deeper layers of the skin, collagen and elastin production diminish, causing a reduction in firmness and elasticity.

The Result

The Result of this aging process combined with the cumulative effects of the sun's exposure is the appearance of fine lines and wrinkles, a dull and dry skin tone and texture, and an increase in skin discoloration.

Therefore, if you are not using a product with one of the following 5 ingredients, chances are you're wasting your time and money.

Vitamin C, L-Ascorbic Acid

Vitamin C, L-Ascorbic Acid aids in preventing sun damage by increasing levels of this antioxidant in the top layers of the skin. It is very difficult to find active Vitamin C in any over the counter creams. Rule of thumb: If it's not expensive, it probably isn't active.

Glycolic Acid

An Alpha Hydroxy Acid which helps to exfoliate, moisturize and correct fine lines and brown spots. It must be at least 8% to be effective. It works best at 15%-20% or in peels at much higher concentrations.

Salicylic Acid

A Beta-Hydroxy Acid that works similarly to glycolic acid but may be less irritating and better for oily and acne prone skin. Wonderful as an in-office peeling agent.

Sunscreens

Sunscreens; find one you like and use it daily. Even in winter.

Antioxidants

Vitamin C Products

Vitamin C is a powerful antioxidant that helps neutralize the damaging effects of free radicals, the unstable chemicals that are a result of air pollution, smoking, stress, and sunlight. Studies suggest that Vitamin C has the potential to stimulate the growth of collagen which is responsible for maintaining healthy skin elasticity and texture.

The unique patented polymer matrix technology found in High Potent-C delivers pure stabilized L-Ascorbic acid to the skin. Research indicates that pure L-Ascorbic Acid in concentrations of 10% and higher are necessary to provide enhanced absorption for better results. High Potent-C is used as a treatment not as a moisturizer.

High Potent-C 20% Cream

A more emollient formulation that is especially used for dry skin. This cream can be used over the entire face and neck and under a moisturizer.

High Potent-C Vita Lift Eye Cream

This Eye Cream utilizes a rich blend of antioxidants including Vitamin A, C, and E, Green Tea Extract and Co-Q10 to reduce the free radical damage to the sensitive eye area. This rich emollient base contains minerals for fine lines.

Glycolic

Alpha Hydroxy Acid Products

Alpha Hydroxy Acid Products are used in exfoliation of dead skin cells on dry mature skin for anti-wrinkle regimens or acne skin.

Super Rich 18% Glycolic Cream

A highly emollient glycolic formulation for extremely dry skin. The 18% Glycolic Acid exfoliates dead skin cells from the face and neck to diminish the appearance of fine lines and wrinkles and provides better skin texture and tone.

Alpha-Beta Pads

Specially formulated for oily acne-prone and combination skin. It contains 10% ultra-pure Glycolic Acid in combination with the proven Keratolytic ingredient 2% Salicylic Acid. The formulation accelerates the removal of dead skin cells that interfere with oil drainage and antiseptic properties of the skin. For use alone or as an adjunct to a physician prescribed acne regimen.

Cleansers

Hydrating Cleanser

An ultra mild cleanser for dry, sensitive, or normal skin that leaves the dermis feeling soft and smooth. This fragrance-free cleansing lotion is uniquely tailored for patients who cannot tolerate soap or are on an exfoliating skin care regimen.

BP Wash

A 10% Benzoyl Peroxide wash that thoroughly cleanses acne-prone skin with a special soap free formulation providing antibacterial activity against acne. The Aloe Vera leaves the skin cleaned and moisturized.

Creamy Foam Cleanser

A mild soap-free cleanser mildly drying to the skin. Excellent for more oily and acne-prone, teenage skin or clogged pores.

Special Products

Eye Serum

This Nourishing serum formula delivers the super hydration of Hyaluronic Acid along with a rich blend of antioxidants, including liposomal Vitamins A, C, and E, and Green Tea Extract in combination with Co-Q10. **Also good for lips.**

Replenix Serum

Replenix is a lightweight, fast absorbing, water soluble formula containing 90% polyphenol isolates, derived from green tea. These polyphenol isolates are known for their highly potent antioxidant properties. Also contains acid to provide lightweight moisture and to help improve the texture and tone of the skin. Non-comedogenic and non-sensitizing, the Replenix Serum is suitable for all skin types, particularly sensitive skin.
